

Low-Cost Options for Prescription Drugs:

Manufacturer Programs:

Limited prescription drugs are available free or with a small co-payment. Often your doctor who writes the prescription will need to contact the drug company to provide information about you and your prescription. Ask your doctor if they are aware of any programs available. Or you can check out these pharmaceutical company websites:

www.bridgestoaccess.gsk.com (GlaxoSmithKline) or call 1-888-825-5249

www.merck.com/merckhelps (Merck) or call 1-800-506-3725

www.pharma.us.novartis.com (Novartis) or call 1-800-277-2254

www.pfizerxpathways.com (Pfizer) or call 1-866-776-3700

Internet-Based Directories:

www.benefitscheckup.org

This website helps determine if you qualify for any government or private programs that provide lower cost RX drugs.

www.pparx.org/Intro.php (Partnership for Prescription Assistance) or call 1-888-477-2669

Gives access to hundreds of public and private patient assistance programs, including assistance from pharmaceutical companies.

www.NeedyMeds.com

Provides information on programs that offer lower priced drugs.

www.RxAssist.org or call 1-877-844-8442

You will need to register to use their site. Search their database of prescription drugs to find assistance programs that may be available.

www.RxOutreach.com

Provides generic prescription drugs to low-income people of all ages.

www.togetherrxaccess.com or call 1-800-444-4106

If you are not covered by any insurance or government assistance, you may apply for a card here which can get you savings of up to 40% on some prescriptions.
